Summary

As an MLOps Engineer, I specialize in TensorFlow, Python, and PyTorch for machine learning and deep learning solutions. My expertise includes problem-solving, data analysis, pattern recognition, and software development. I leverage tools like MySQL and sklearn to build and deploy scalable ML models. I excel in algorithms, demonstrating leadership in team projects, and fostering effective communication and teamwork. My skills ensure the successful integration of machine learning systems into production environments, driving innovation and efficiency.

Education

 **Bihar Board Of Open Schooling Examination**

Class 10 , Computer Science

May 2020 - May 2026

Licenses & Certifications

 **Data analytics and visualization** - Great Learning

 **Python programming** - Great Learning

 **Accenture North America - Data Analytics and Visualization Job Simulation** -
Forage
7qAHWYepQ9aF5MZfn

 **MySQL Basics** - Great Learning

 **Deep Learning** - Great Learning

 **Machine Learning with Python** - Great Learning

Skills

Deep Learning • Software Development • PyTorch • Plotly • Seaborn • Matplotlib • Keras •
Scikit-Learn • Pandas (Software) • NumPy
